

Creative Arts Long Term Plan

Creative Intent:

It is our mission to ensure pupils are engaging with learning that goes above and beyond the National Curriculum. Creative Arts is carried out in Key stage 3 through a variety of themed topics per term including Warhammer projects, music production, graphic editing, pottery and crafts, graffiti art and a community project.

The themes are carefully selected to provide a broad variety of skills that will motivate and support pupils' engagement while exposing them to different elements of art.

Autumn		Spring		Summer	
Warhammer project Designed to support pupils with their engineering, arts and maths skills. Pupils will build, paint, play and read in the Worlds of Warhammer. Pupils 14+ may lead onto the development programme where they can work towards achieving the Duke of Edinburgh.	Music Production and DJ skills Pupils will engage in several musical workshops learning about composition, editing and music production.	T-Shirt Design, 3D Printing Pupils will plan and design a T-Shirt or bag using a Graphical Editor and printer transfer paper. Pupils will learn the necessary editing skills to create a real-life product	Graffiti Art Pupils will learn how to design graffiti art and the legalities surrounding this.	Pottery Pupils will explore pottery and craft making. They will plan, design and create a product that could be sold on a market.	Charitable Project Pupils will plan and deliver a fundraising event(s) for parents and the school community.
